## ABOUT ME

I am Francesca Krnjak, I create, design and realise performances to make your event special and unforgettable.

Organizing an event is difficult and making it unforgettable is a real challenge. The offer is wide and disappointment is always lurking around the corner.

I recommend to choose somebody truly professional who can help you make your event unique and smooth.

I studied with the best professionals in theater and dance to fine-tune my ParolaBianca performances with which I create magical and delicate moments that amaze young and old.

My performance is customized to suit your needs, and my presence can range from behind the scenes to a full show.

Your event will be memorable and everybody will remember you and the emotions you made them feel: you will offer a daydream, a moment of pure magic.

My range of proposals is ideal for those who are looking for something different and unconventional without being over the top. Those who want to feel and elicit emotions while being carried away in a dreamlike world, which brings us back to childhood.

All my performances are original, music included, and can be adjusted in case of unexpected circumstances.

I'm based in Modena, but also spend time in Berlin and in Cape Town; for work I am prepared to go anywhere.

Write to me let's talk about your wedding and how I can help you make it even more special.

## PRIVATE EVENTS

Make your event unique and memorable with value adding customized services.

Thanks to our twenty years of experience we can offer you specific advice for Your event: we will study together your expectations and the feel you want to give and we will propose ideas a solutions to suit Your specifications.

We go beyond performing, our speciality is to create a special atmosphere, awaken emotions and transmit poetry with performances. Each performance is a cultural experience steeped in magical light involving all your guests.

The difference between performing and facilitating lies in the years of experience, study and research. We believe in evolving and perfecting our work all the time.

All actors, musicians, dancers employed are professionals. This is to assure both a high quality performance and maximum flexibility in case of unforeseen circumstances.

## STREET FESTIVALS

Parolabianca was born about twenty years ago in the street where she always goes back enriched with a new universe of side characters.

Since I became Parolabianca I researched, design and created performances to bring beauty, magic and amazement everywhere and to everyone.

All the performances are designed to easily fit in any context, included street festivals, malls, events.

Some performances do not require any kind of technical equipment, others are flexible and adaptable according to the location and type of event.

## PAROLABIANCA

Parolabianca is a silent oracle, a fairy guru with a magical sphere full of riddle messages. The cards are customizable with your name, your brand, your logo, the date of the event or whatever you prefer.

During the exhibition Parolabianca offers magical moments of pure poetry.

Guests can enjoy the performance at will, her presence is subtle and non-invasive.

The best time for Parolabianca performance is during the welcome drink, but you can fit it anytime you wish. It is suitable indoor and outdoor.

To make the moment truly magical we suggest the use music, a strongly evocative sensorial aspect that adds magic to magic.

The evocative power of live music is the best choice to enhance the poetry inherent to Parolabianca.

Alternatively a playlist specifically compiled to suit the event is another option.

For evening performances the luminescent costumes we use do not require professional lighting.

Give us a three or four weeks notice from the date of the event for personalized and branded messages.

## LUNAR INVASION

Moonlight Invasions cannot simply be explained, this performance can only be experienced live. In fact it proposes the idea of a “different/another” space, with a sense of gravity unlike that on Earth, a sense of a very remote a world, populated by imaginary beings venturing in unexplored places.

This is a performance evoking a universe of surreal imagines using body, costumes, tools, and a play of lights and shadows.

This effect is created by dance combined with optical illusions supported by a light design project and video imagines.

Moonlight Invasions is an invite to flee from the real world and plunge into the magic of mystery. This is achieved thanks to its visual seduction, where invented fascinating cosmic objects leap and fluctuate in a metaphysical moon sea.

## LUNAR INVASION ITINERANT SHOW

During itinerant parade stilt acrobats and dance actors glide amongst the crowd, creating illuminated tableau vivant (living pictures). Stilts as a stage to catalyse attention. The mastery of the actors becomes a game, which interacts with adults and children, while dance becomes a magic ritual able to lift the audience from the ground and take them into a dreamy dimension, with music and sound from the company repertoire.

Before or after the parade (to be agreed depending on the type of event) the group splits and forms couples or individual characters depending on the technical structure of the costumes; these characters sneak and crawl in the various streets and/or locations/venues in the festival area, outdoor and indoor locations/venues whenever possible. A real Invasion.

## MUSICIANS

Parolabianca's hand picked musicians add magic to magic, offering a full sensorial experience.

Sound and melodies combined with makeup and clothes perfectly recreate the dream world where the Parolabianca characters live. Like being in a movie.

Live music has a strong impact on people's memories and hearts. Musicians are an essential part of this performance.

The range of professional musicians includes: Malian Harp Kora of Ngoni, Cello, Violin, Mellophone, Trumpet, Sax.

### LEGOLOOP

Legoloop is a musical project that combines musical genres such as indie, electronic, tribal, fusion with an ever changing outcome in continuous evolving.

The duration of the show and the technical requirements set according to your needs.

### TRIBALNEED

Solo artist who combines synthesizer, didjeridoo, percussion and beatbox to create a sharp electronic sound on tribal rhythms. The show duration is flexible and requires minimal logistics.

## CRYSTAL WINGS

Moon, dance, lights... even from its title this performance plays with three elements: in fact the dancers inspired by these elements create forms straddling cosmic landscapes and fairy tales sceneries.

Often the audience is not certain of what each dancer or costume represents. The voluminous skirts look like flowers or sea sponges; the large fluctuating wings first are stars and then turn into whirling lunar butterflies.

Crystal Wings is at once a poetic and futuristic image.

Performance for soloist and/or dance group/stilt acrobats

## FASHION BUTTERFLIES

The Fashion Butterflies are truly unique and exclusive: the performance is made with the costumes that the Maison Dior has recreated with the works of the painter Pietro Ruffo.

The show was chosen by Dior for its opening event of the Venice Biennale 2019, during the Tiepolo Ball an event organized in collaboration with the Venetian Heritage Foundation in the eighteenth-century halls of Palazzo Labia.

If you want the art, style and magic of a dream dance you can choose this exhibition as a soloist or with two dancing artists.

## BUTTERFLY

Butterfly, is definitely a character with a stage presence and can be accompanied by other characters of Lunar Invasions, or perform in trio with the Crystal Wings and, thanks to its ability to project images, videos and light games on the big wing, it becomes a performance in itself.

According to your requests we can customize the video and thus create a special feel reflecting Your event.

Live music is the best choice to accompany this majestic performance, alternatively we offer a playlist of original music and repertoire.

Depending on your needs and the type of location you can choose the best spot to place Butterfly; the installation takes up about 4 to 5 m3.

Space permitting, it can be positioned both inside and outside.

For a perfect success of this performance, the artist needs to work with the sound and light service present at the event.

If this service is not present at the event, the sound and light systems including technician/assistant will be provided, at a cost.

## THE DREAMS SPINNER

As straight as a rod, her clothes are eccentric,  
paper and airy fabric draw circles that are concentric

One day her hair is red the next it is blue, the wool on her spindle too: a soft pink ball when her mood is good, as black as the night when she is not all right.

The patterns she whirls, spins and weaves reflects her way of being.

We see her dancing with elegance even her life "is hanging by a thread".

Juggling wool balls, her hands criss cross threads with visible and invisible hands, until the beholder is wrapped in a colorful whirl.

She spins dreams, secrets and hidden thoughts, all carefully weaved.

Though they are sewn and perfectly sealed, sometimes in a whisper they are revealed and thoughts and dreams and secrets drift in the air, until they reach ears that are far away

## ORBIT

This show is dedicated to those who believe they have seen everything but still want to live magical emotions and see a dream come true.

In this performance, Parolabianca's white costume becomes the screen for a video projection that develops directly on the body of the dancer and captures all the surrounding environment: a wall or a neutral screen but also the interior of a building or street corner.

The music, the light effects and the technology used lead an astounding show.

Parolabianca opens its oracle to the public and gives a message to anybody who wish to follow their dreams.

Give us a three or four weeks notice from the date of the event for personalized and branded messages.

For the success of this performance, the artist needs to survey in advance the location and to agree with the sound and light service present at the event.

If this service is not present at the event, the sound and light systems including technician/assistant will be provided, at a cost.

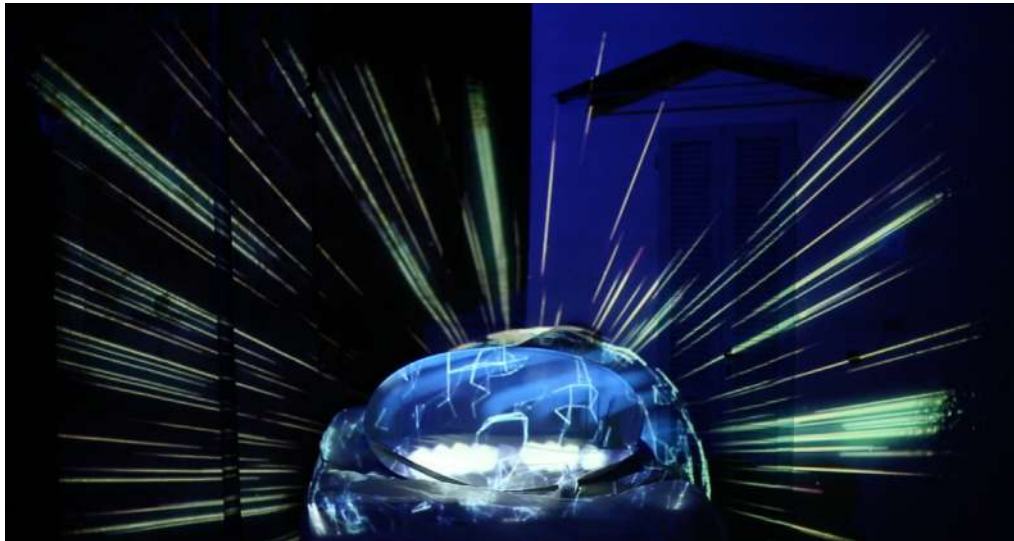

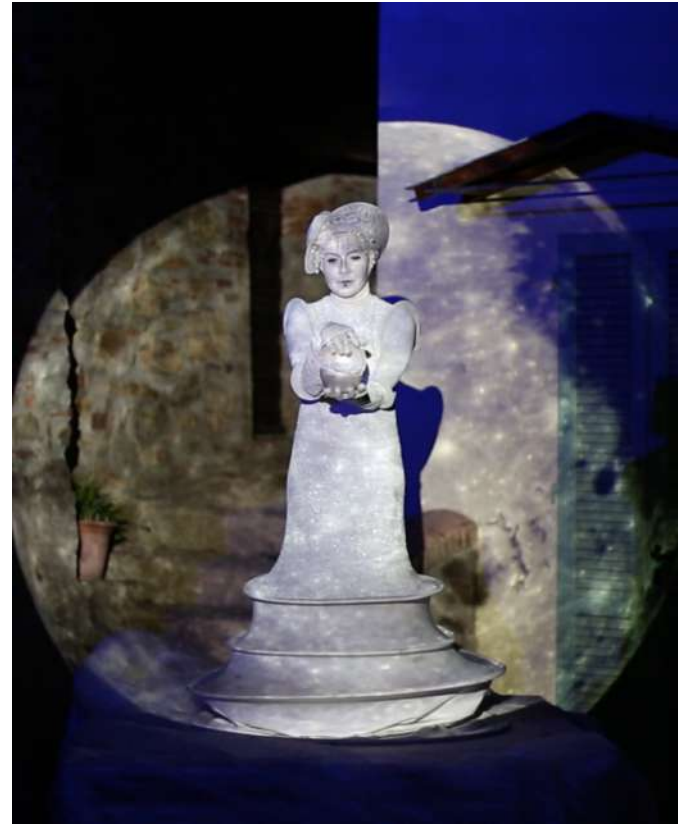

Conception and creation of the show by Francesca Krnjak.

Video Designer by Inka Kendzia.
